Hit Points		(Death Save is equal to BODY)								
Hit Points	Body	2	3	4	5	6	7	8	9	10
	Starting Hit Points	10	15	20	25	30	35	40	45	50
	Seriously Wounded	5	8	10	13	15	18	20	23	25
Wound State Effects	Seriously Wounded (1/2 Starting Hit Points)					Mortally Wounded (0 Hit Points)				
	When you reach 1/2 your Starting Hit Points (rounded up) you are seriously wounded. You take a -2 to all Actions.					At 0 Hit Points you enter Death State and are mortally wounded. You take a -5 to all Actions but not to your Death Save, which you make at start of your Turn.

Netrunner Abilities

Ability	Effect
Scanner	Find out location of systems in an area. The Higher you are, more you spot. GM to determine how much you learn.
Backdoor	Allows you to break through a Password. If you already know the Password you don't need to use this.
Pathfinder	Reveals the "map" of the network Archi-tecture. The higher you are, the more you know of the "map." This tells you generally what is in the system you have just broken into. It is up to the GM's Des-cretion to determine how much you find.
Slide	Allows you to attempt to flee a conflict with a Black ICE program. If you are able to roll a successful Slide check against the programs Perception + 1d10 you escape and move on to an adjacent floor.
Zap	Allows you to make an attack against a Program or or enemy Netrunner. If you are able to roll a successful ZAP check against the programs Defense Value + 1d10 you deal 1d6 REZ Damage to the Program or Netrunner's brain.
Eye-Dee	Allows you to know what a found piece of data (like a File) is and its value.
Control	This is the ability to control things that are either attached to the system using a Control Node. Operating something attached to a Control Node requires a separate NET Action after the Control check is made.
Virus	Once you have reached the last level in the elevator you can leave your own Virus to act as you want, within reason. You must roll an Interface check and the higher your check the more impressive the effect of your virus can be and the shorter time it takes you to write it. The DV to destroy your Virus is equal to the Interface check you made to create it. This ability can require as many actions as the Gm determines based on the check you made.
Cloak	The ability to hide traces of your pres-ence and any Viruses you left in the system. The Pathfinder DV for another Netrunner to overcome your Cloak and discover your actions is equal to the Cloak check you made to create it.
